- marker
- colored chalks or colored pencils

DIRECTIONS

1. Write the letter "W" and turn it on its side, clockwise.
2. Make a circle at the top right next to the top end of the "W." Turn it into an eye with an eyelid and fill in the pupil.
3. Add a nostril to the top "V" part to make a nose. Add a mole on the top of her nose and a line under the eye.
4. Give her a smiling mouth; the bottom part will be her chin. Add a square for a tooth and add a tongue, darkening in the rest. Draw a small line underneath for a lower lip.
5. Draw a large witch hat with a jagged line to make it look old and shabby. Make the top of the hat come to a point.
6. Draw messy straw-like hair, and draw a diagonal line coming out underneath her chin to show her body.
7. Color in her face green. Use black for hair, but draw it lightly so it's grayish. Use black for her hat.
8. Draw some stars around her head to show she's casting a spell!
