## BACON AND EGG COSTUME

[www.activitytv.com](http://www.activitytv.com)

### DESCRIPTION

Bacon and eggs aren't just for breakfast anymore...now you can serve them up as a great Halloween Costume!

### MATERIALS

- black shirt
- black pants/leggings
- black shoes
- yellow sticky felt
- glue
- utility knife
- red foam board
- white foam board
- scissors
- white felt
- black tape
- marker

### DIRECTIONS

1. Draw and cut the white foam board into the shape of a fried egg.
2. Cut out a circle large enough to fit your head through. Pop everything out.
3. Flip the foam board over. Slip yellow felt underneath the hole and trace around it before cutting the oval out. Trace the face hole from the foam board you're your yellow felt and cut out the middle. Stick felt onto the white foam board so your face is the yolk!
4. Trace and cut your red foam board into the shape of a piece of bacon. Cut out thinner strips of white and glue them onto red foam board to make it look more like bacon.
5. Glue your red bacon onto the white foam board.
6. Set aside to dry. To make the costume wear-able, cut 2 long strips of white felt and attach them to your egg in a crisscross pattern. Tape the ends down.
