

DESCRIPTION

This Easter, put a little extra hop into your holiday by creating your own Bunny Easter Basket!

MATERIALS

- basket
- grey felt
- pink felt
- white foam
- 3 cotton balls
- fake Easter grass
- scissors
- glue
- black marker
- googly eyes

DIRECTIONS

1. Cut your grey felt in half with your scissors.
2. With a marker, draw the shape of a bunny head onto one of the cut halves by drawing a circle with two ears.
3. Cut your bunny head out.
4. Draw and cut another circle out of your second half of grey felt. This will be the bunny's back end.
5. Draw and cut out two teardrop shapes from your remaining grey felt. These will be your bunny's paws.
6. Time to decorate your bunny parts! Attach a cotton ball to the center of the back end shape with some glue. Glue two googly eyes onto your bunny's face.
7. Cut a tear-shaped nose and two inner ear shapes out of your pink felt. Attach them to the bunny head in the appropriate spots. Use glue if your felt isn't already sticky.
8. Draw and cut out some teeth from your white foam board. Draw lines using your marker to make them look like buck teeth and then glue them onto your bunny face. Let everything dry for about twenty minutes.
9. Glue your other two cotton balls under the nose to give your bunny puff cheeks.
10. Take your paws and draw in a few lines with marker to show his fingers.
11. Once dry, glue your bunny head and paws to the front of your basket, then glue the back end to the back of the basket. Fill the basket with Easter grass and you'll be ready for your next Easter egg hunt!
