DIRECTIONS

1. Cut 3 strips out of pink sticky felt to create petals. Cut each strip into 2 pieces. Cut the front and back of a petal out of sticky felt.
2. Peel off backings and insert green pipe cleaners inside the pair of petals. Take scissors and cut petal shapes. Make enough to fit around your headband.
3. Paint petals with glitter paint. Set them aside for about half an hour.
4. Attach petals to headband by wrapping free ends around headband.
5. Wrap yellow pipe cleaners around marker to create spirals. Attach yellow spirals to your headband by twisting the ends around the band in between the petals.
6. Drape the leaf garland over your shoulder and around your waist to create a vine look. Pin the vine on your shoulder and your waist with safety pins.
