

DESCRIPTION

Ahoy Matey! Are you looking for a swashbuckling good time this Halloween? Then grab your supplies and get ready to transform yourself into a Pirate!

MATERIALS

- white dress shirt
- black pants
- black shoes
- red handkerchief
- white sticky foam
- black foam
- scissors
- black marker
- fisherman's net
- pirate jewelry
- string
- clear elastic string
- silver marker

DIRECTIONS

1. To make a pirate's wheel, trim off the excess of a rectangle of black foam to make a square. Draw on the shape of a wheel with a silver marker and cut it out.
2. Draw a skull and crossbones onto white sticky foam and cut it out. Stick it on the center of your pirate wheel and draw on a face.
3. Take some string and create a necklace out of it. Fold the string, put the loop underneath the wheel and string it around.
4. To make an eye patch, cut a patch large enough to fit over your eye out of black foam. Draw and cut out a skull and cross bones for the patch out of white sticky foam and stick it on. Cut 2 small holes in it with scissors and thread elastic thread through both holes.
5. Put on fake facial hair, pirate's wheel, necklace, medallion and eye patch. Put on a red bandana and fishing net around waist.
