

DESCRIPTION

Princesses have many fabulous jewels. This jewelry box is the perfect place to store all the jewels of a princess.

MATERIALS

- Heart shaped wooden box
- Pink paint
- Faux flowers
- Decorative decals
- Plastic gems
- Scissors
- Glue
- Plastic plate
- Paint brush

DIRECTIONS

1. Place your box on a paper plate and paint it pink (or another color of your choosing). If you don't have a heart-shaped box, you can use any box you want, including a shoebox. Once fully painted, set your box aside to dry for 1 to 2 hours.
2. Cover the sides of your painted box with decorative decals. You can also always use glitter and glue or paint to decorate it if you'd like. Just be sure not to cover the seam of your lid. That way, your box will be easier to open.
3. Now move on to the top/lid of your box. Take your faux flowers and cut off the stems. Then, glue the flowers onto your lid however you'd like.
4. Next add small gems using small dabs of glue to further accent your box lid.
5. Let everything dry for 1 to 2 more hours and then you can fill your jewelry box with your favorite princess jewels!
