

## DESCRIPTION

This magic mirror will turn all who gaze upon it into a princess.

## MATERIALS

- Mirror with wood frame
- Gold plastic jewels
- Gold paint
- Silver doily
- Gold glitter
- Scissors
- Glue stick
- Paint brush

## DIRECTIONS

1. Paint your mirror's wooden frame gold. Use several coats if necessary to give it a gilded look.
2. Sprinkle gold glitter onto your frame while the paint is still wet so that it sticks to it when it dries. Set everything aside to dry for about one to two hours.
3. Once everything is dry, take some silver doily and cut out a small section of the outer pattern in the shape of a crown. Take your crown shape and glue it right onto the top part of your mirror. Think of it as a magic mirror that makes a crown appear on your head when you look at it!
4. Glue plastic jewels all around the frame and set it aside to dry for an hour.
