

DESCRIPTION

Slip into royal comfort with some fabulous princess slippers.

MATERIALS

- Slippers
- Clear plastic jewels
- Purple plastic jewels
- Pink plastic flowers
- Feather boa
- Scissors
- Glue

DIRECTIONS

1. Glue clear jewels around the soles of each slipper. The jewels should be about a half inch apart.
2. Use more jewels along with your pink flowers to make a design on the top of each slipper. An easy one to make is a flower design by gluing a clear jewel in the center, purple jewels around it for the petals, and then pink flowers between the purple petals. Set everything aside to dry.
3. Take your boa, cut it to the shape of each slipper and attach the two boa pieces around the lips of the slippers using glue. Let everything dry for about an hour, try your slippers on, and live happily ever after!
