

FAMILY GIFTS

MAGNETIC FRAME

www.activitytv.com

DESCRIPTION

This clever gift multitasks as a refrigerator magnet, a picture frame, and a one-of-a-kind piece of art...and it also provides tons of entertainment on a rainy day! All you need are some crayons, scissors, and paper to get started!

MATERIALS

- paper
- scissors
- colored pencils
- crayons
- 1 sheet adhesive magnet
- your favorite photos
- glue stick

DIRECTIONS

1. Take your piece of paper and draw a design on it with lots of places for small images, such as a school, car, or plane.
2. Take your magnetic sheet and cut out enough to back your artwork. Now attach the magnets to your drawing.
3. Cut out the design, and then have your adult helper cut out the photo holes.
4. Cut your pictures to fit behind the holes. Then, just tape them in place, and you're done!
