

DESCRIPTION

Learn how to make a nifty puzzle frame that makes a great gift for a friend or family member! Grab some wooden blocks and 2 photos to get started.

MATERIALS

- 6 (2-inch) wooden cubes
- silver paint
- blue paint
- paintbrushes
- rubber band
- thin black marker
- 2 photos (4x6)
- double-sided adhesive sheets
- scissors

DIRECTIONS

1. Paint the sides of each cube, leaving the top and bottom bare.
2. When the cubes are dry, arrange them in a rectangle with the unpainted sides up, and wrap a rubber band around them to hold them together.
3. Trace the shape of the rectangle onto 2 pieces of the double-sided adhesive, then cut out the shapes.
4. Take your photos and attach them to one side of the adhesive sheet. Take one of your blocks and trace 6 2-inch squares onto the back of each photo and cut them out. Make sure that you keep all of the photo pieces in the order they need to be attached to the blocks.
5. Attach the photo pieces to both sides of the blocks, and you'll have a spectacular picture puzzle!
