

DESCRIPTION

Join host Lisa Bleyaert and her friends on a jewelry making adventure. Learn how your favorite family photos can turn into a cool collage bracelet!

MATERIALS

- 1 piece of sticky felt
- photos
- velcro
- glue
- scissors
- ruler
- marker
- colored paper

DIRECTIONS

1. Measure a rectangle 2 inches by 8 inches on a piece of Stick-It felt and cut it out. This piece will be the backing of your bracelet.
2. Now you have 2 options. You can either find one really cool picture big enough to cover the whole bracelet or a bunch of small pictures to make a collage.
3. Either way, cut your pictures out and remove the paper backing from the sticky felt. If you're using a bunch of small pictures, lay them all out before sticking them to the felt. Once the pictures are stuck to the felt, they are stuck for good! Lay down a background color first. I choose black for the Shrek bracelet. If you want to overlap pictures, use a super thin layer of Mod Podge (or white glue). Let dry.
4. Stick velcro to either side & voila!
