

DESCRIPTION

This serpent bracelet will slide right on your arm and into your heart! Just grab your glitter and glue to get started.

MATERIALS

- 1 sheet of pink foam
- 1 sheet of light green sticky foam
- pink ribbon
- glue
- paper
- scissors
- marker

DIRECTIONS

1. Measure your wrist by taking a piece of string and wrapping it around your wrist, then measuring the string. This is how long our serpent needs to be. Draw the letter S on the paper backing of the light green Stick-It felt.
2. Turn your S upside down and draw another S on top.
3. Continue this pattern until your bracelet is the same size as your wrist measurement.
4. Turn your serpent and draw another S coming towards you.
5. Complete the outline of your serpent by following the long line of S's you just drew.
6. Make a circle for the head and cut the whole thing out!
7. Peel off the paper backing and stick your serpent onto a sheet of pink felt. Draw the letter Y on the tip of your serpent's head. This will be his slithery tongue! Cut around the green body and Y shaped tongue.
8. Create a cool design on his back with glitter glue.
9. Don't forget glittery eyes! Cut Velcro into small enough pieces to fit behind the serpent's head.
10. Stick a piece of Velcro underneath his head and right where his tail curves.
