

MAGIC
ALL SORTED

www.activitytv.com

DESCRIPTION

Want to learn a great card trick that will really fool your friends? All you need is a deck of cards to perform this cool trick!

MATERIALS

- deck of cards

DIRECTIONS

1. Take a deck of cards and remove all of the face cards (Jacks, Queens, and Kings) and Aces. Separate the cards by suit (hearts, clubs, spades, diamonds) so you have four piles. Each pile should be in the same order: Jack, Queen, King, Ace.
2. Spread out all four sets of cards to show them to your audience, then gather them back into a pile and turn it face down. Make sure they remain separated and in order in your pile.
3. Cut the cards any number of times (generally four or five times work) and then deal the cards again into four new piles facing down. The trick should perform itself automatically if you've followed the instructions.
4. After dealing, turn the piles face-up to reveal that they've resorted themselves! All of the Jacks, Queens, Kings, and Aces will be together and separated!
