

## DESCRIPTION

Everyone loves a magic trick that involves something exciting...and this one is no exception. So grab your magic gear and get ready to learn...Will the Cards Match?! The only thing you need is a deck of cards!

## MATERIALS

- deck of cards

## DIRECTIONS

1. Shuffle the cards.
2. Secretly look at the bottom card as you place the cards on the table, face down. This will be your secret "key card".
3. Ask a spectator to cut the cards and look at the card they've cut to.
4. Ask them to replace the card back onto the top of the deck (this is the section they cut off before).
5. Ask them to then place the other packet on top of their card to bury it.
6. Ask them to cut the cards two or three more times to further "mix" the cards.
7. Explain that you will now find their card. Hold the cards face down in your hand as you begin to turn the cards face up onto the table. Look for the card you remembered, the key card.
8. When you spot the key card, the spectator's card will be the next one. Note which card is theirs.
9. Continue to deal a few more cards then announce, "the next card I turn over will be your card."
10. The spectator, who already seen their card pass by, will think you're about to mess up.
11. To their surprise, you then reach into the pile and turn their card face down!
