

DESCRIPTION

Amaze your audience with this skillful trick!

MATERIALS

- piece of thick rope (about 2 feet long)

DIRECTIONS

1. Hold the rope in your left hand with about 10 inches hanging from the bottom.
2. Wrap the top length around your left thumb, wrapping the rope from top to bottom.
3. Wrap it around three times and then bring the remainder up into your hand and make a bow.
4. Pinch the bow closed with your left thumb and fingers.
5. Grab the length hanging from the bottom and "aim" it at the bow. Count to three and on THREE pull the extra length beyond the bow... it will look as though you threaded the long piece through the bow (actually the length just unwound from your thumb and a piece slipped into the bow).
