

DESCRIPTION

Have you ever heard of the famous trick "Sawing a Woman in Two Pieces?" Well, you can learn how to do the same trick using your finger!

MATERIALS

- none

DIRECTIONS

1. Place the four fingers of your left hand in front of the first and second finger of your right hand. The left hand should be pointing down and the right hand should be pointing to the left.
2. Bend your first finger back at the same time you extend your left thumb behind your right finger tips... it should look like your thumb is now the tip of your right hand first finger.
3. Slowly move your left hand to the left, making it look as though your finger tip is coming with it.
