

## DESCRIPTION

Grab a friend and get ready to perform some magic! The Great Rope Escape is sure to amaze your audience!

## MATERIALS

- rope (two pieces, each roughly 3 feet long)

## DIRECTIONS

1. Make a loop on each end of two pieces of rope, large enough for your wrist. Tie each end of one rope to the wrists of your spectator and tighten.
2. Take the second rope and tie one end to your wrist, but before tying on the other end, thread it through your spectator's rope, so that the two of your ropes are tied together.
3. To unlink them, take the middle section of the other person's rope and thread it through one of the knots around your wrist, from the back to the front.
4. Once you have enough slack through the hole, slip your hand through the slack and then pull the slack back out through the hole. You'll now be unlinked!
