

DESCRIPTION

Have you ever heard anyone say "money doesn't grow on trees"? Well, it doesn't...it floats in mid air all around us! Learn how to magically make money appear out of nowhere!

MATERIALS

- quarter

DIRECTIONS

1. Preparation: Before you perform this trick, place a quarter into the crevice between your thumb and forefinger on your right hand.
2. Practice holding the coin in this position so that it feels comfortable and you'll hand will look natural.
3. Performance: With the back of your right hand facing the audience. Casually wiggle your fingers to show that your hand is empty.
4. Now, look up into the air in front of you. Reach out with your hand and pretend to "pluck" a coin out of nowhere... actually, your forefinger and second finger curl back and pull the quarter out of its hiding place. Show the quarter!
