

## DESCRIPTION

Every magician needs to know how to do a little manipulation with playing cards! So grab a deck and get ready to learn The Toss Up Vanish!

## MATERIALS

- a single playing card

## DIRECTIONS

1. Hold the card in between your forefinger and second finger.
2. Shift your body so that the back of your hand is facing the audience.
3. Bring your hand down to your waist level and then back up to your eye level, making a continuous motion as if you're tossing the card in the air.
4. As your hand comes down to your side, curl your first two fingers and capture the card in between your thumb and palm. Magicians call this a Tenkai Palm.
5. To re-produce the card, just do the reverse motion to bring the card back into view in between your fingers.
