

## DESCRIPTION

Take a trip back in time with Origami master, Michael LaFosse, as he folds an ultra cool dinosaur. Fold along with the instructions and you'll have your own Jurassic pal in no time!

## MATERIALS

- 1 piece of square paper (if using origami paper, make sure it's white side up)

## DIRECTIONS

1. Take a square sheet of paper, white side up.
2. Fold bottom to top and make sharp creases open and flatten up paper.
3. Right bottom edge and fold into center crease same with left.
4. Flip over and upside down with wide corner down.
5. Fold wide corner and roll up to paper fold.
6. Flip paper.
7. Fold right top layer straight out so it stops at bottom and top edge is straight.
8. Fold rectangle in half from bottom then unfold.
9. Fold bottom right corner to middle rectangle crease then repeat with each rectangle corner into middle corner.
10. Turn paper around grab top portion and flip down so the square corner pops up. Flatten it.
