

PAPER AIRPLANES

DOUBLE FLAP GLIDER

www.activitytv.com

DESCRIPTION

Get ready to find out how to make the coolest paper airplane around! Watch and fold along with folding master, Michael LaFosse, as he teaches us how to make a plane that will actually flap its wings if you throw it hard enough.

MATERIALS

- 8 1/2 - 11 inch paper, square shaped

DIRECTIONS

1. Take an 8 1/2 - 11 inch paper, square shaped.
2. Fold in half.
3. Fold left edge, tall side.
4. Fold top layer short edge until it aligns with long edge.
5. Unfold completely short side down.
6. Fold bottom edge until it hits crease from step 4 and unfold.
7. Bend bottom edge along crease you just made.
8. Align bottom right half folded edge with center crease, repeat left side making the nose.
9. Unfold the two flaps.
10. Take the right cut edge, and roll over till it line up with valley crease. Repeat with left side.
11. Tuck right flap behind low right edge repeat left side so its secure and a stiff nose.
12. Flip and turn so its like a house.
13. Right corner up between middle crease and diagonal fold line, repeat left side and unfold.
14. Turn sideways and fold wing to wing.
15. Fold wing down so that it's wider towards the front.
16. Flip and fold the other side so wings match set wings flat on the table.
17. Add wind flaps fold at least 1/2 inch of paper on each side.
