

ROOM PROJECTS

BIRD CHANDELIER

www.activitytv.com

DESCRIPTION

Learn a simple way to create dramatic lighting with a sense of humor!

MATERIALS

- bird cage
- lamp cord with bulb socket
- lightbulb
- silk flowers
- fake birds
- wire
- wire snips
- chain
- white electrical tape

DIRECTIONS

1. String your lamp cord and socket thru the door or top of the birdcage, so that socket hangs inside the cage. Bring the end with the plug on it out through the top of your birdcage. Secure the cord in place with electrical tape and knot it in place. Take your light bulb and screw it into place.
2. Use wire snips to clip the stems of your flowers and attach them to the birdcage.
3. Attach your decorations to all sides of the birdcage - you can't over do it, so go crazy!
4. Gently thread the chain onto the cord that's hanging from the top of the cage. Then attach one end of chain to the center of the cage roof using electrical tape.
5. Plug your light in and enjoy your blooming masterpiece!
