

SUMMER FUN

FLOWER CROWN

www.activitytv.com

DESCRIPTION

Crown yourself in fresh flowers! Work along with host Lisa Bleyaert as she shows you the steps for making this groovy project. All you'll need are some flowers to start the fun!

MATERIALS

- large bunch of flowers
- wire
- wire cutters
- scissors
- floral tape

DIRECTIONS

1. Find a thin branch or wire, bend it into a circle, and fasten the ends together.
2. Cut flower stems to 2-3 inches.
3. With green tape, tape on your first bunch of flowers. Wrap the tape a couple of times around the first bunch.
4. Take a second bunch of flowers and lay it right on top of the first. There should be no gaps. Wrap tape around this bunch as well. Continue in this way until your whole crown is covered with flowers!
