

# SUMMER FUN

## FROG GLOW-IN-THE-DARK VISOR

[www.activitytv.com](http://www.activitytv.com)

### DESCRIPTION

You can stay cool in the shade or glow after dark with this fun project! Join host Lisa Bleyaert as she shows you how to make this ribbit-tastic Glow-in-the-dark Frog Visor!

### MATERIALS

- green foam visor
- 1 white sheet fun foam
- glue
- glow-in-the-dark paint
- paintbrush
- plastic plate
- scissors
- black marker
- 1 sheet red felt

### DIRECTIONS

1. Cut out 2 large circles from white fun foam.
2. Cut tongue and eye shapes out of red felt.
3. Glue the eyes and tongue to visor and let everything dry.
4. Draw a small black line on tongue, then draw big moon shape pupils on the white circles. Paint the white circles with the glow-in-the-dark paint.
