

SUMMER FUN

SANDCASTLE PYRAMID

www.activitytv.com

DESCRIPTION

Learn how to make the 8th wonder of the modern world...a Pyramid made out of sand! All you need is a shovel and some sand and you'll be on your way!

MATERIALS

- bucket
- shovel
- spatula
- water
- sand

DIRECTIONS

1. Dig lots of sand out for your base and add water. Pack it down using your feet.
2. Add more sand and water to create a pile for your pyramid. Pack it down with your shovel and hands to make a pyramid shape.
3. Draw a line going across the top and cut from the top, creating 4 sides. Make them as flat as possible. Carve lines going across, followed by staggered brick lines.
