

SUMMER FUN

SANDCASTLE TOWER

www.activitytv.com

DESCRIPTION

No sandcastle would be complete without a tower...and host David Billings will show you how to create one! All you'll need is the basic sandcastle formation to get started!

MATERIALS

- spatula
- knife
- spoon
- water
- sand

DIRECTIONS

1. Use your spatula to create a cone shape and carve sides from the top.
2. Use a knife to smooth out the sides. Create windows using a knife and shave a little from the bottom half of the tower. Add door on side.
